Work Experience

SEPTEMBER 2021 - TILL NOW

Engaged in self-initiated projects

As a junior developer, I have undertaken various self-initiated projects, demonstrating my ability to work independently and learn new technologies. Highlights include:

*Web Development: Built full-stack applications using Python, Django, Java, JavaScript, React, and NodeJS. Focused on creating responsive designs with HTML, CSS, and Bootstrap.

*Database Management: Developed and optimized databases with PostgreSQL and SQL.

*DevOps and Cloud: Implemented CI/CD pipelines with Docker and Git, and explored cloud deployment.

*System Administration: Automated tasks on Linux using Shell Scripting.

*Version Control: Used Git for efficient code management and collaboration.

These projects have strengthened my technical skills and showcased my proactive approach to learning and problem-solving.
